The Organizing Committee
Mathematical & Conceptual Aspects of Quantum Theory
Centro de Ciencias Matemáticas
UNAM Morelia

**Letter of Recommendation concerning applicants:
Rosa Luz Zamora Peinado and Paulina Valenzuela Coronado**

I provide this statement for **Paulina Valenzuela** and **Rosa Luz Zamora**, who have asked me to serve as a reference on their behalf. It is my understanding that Rosa and Paulina are keen on attending the Mathematical & Conceptual Aspects of Quantum Theory Conference.

I have known Rosa Luz and Paulina for the past four years but, I came to know them better when they were enrolled in several undergraduate courses I taught at Universidad de Sonora. I have had the opportunity to be their professor in different courses connected to fundamental physics, to observe their participation and interaction in class and, to evaluate their knowledge of the subject matter. I would rate their overall performance throughout their B.Sc. as: high above average. Both Paulina and Rosa Luz are excellent students and are about to graduate top of their class.

From the beginning of his B.Sc. studies, both Rosa Luz and Paulina showed an explicit interest in Quantum Field Theory and Particle Physics and they both have participated in short summer stays and summer schools to learn the basics about those topics. Recently Rosa Luz y Paulina have embarked in research projects that complement their training and that allows them to make a better informed decision regarding their future postgraduate studies.

Based upon Paulina and Rosa Luz academic performance at this stage and my understanding of how important this opportunity will be for them; I am certain that they will profit greatly from this experience. If you would like to discuss this further, please feel free to contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read "M. Tejeda", with a horizontal line underneath.
