

To Whom It May Concern,

I am writing in support of Gonzalo Rafael Vargas Castañeda's application to participate in the conference "Mathematical & Conceptual Aspects of Quantum Theory" to be held in Centro de Ciencias Matemáticas UNAM from 20-22 June 2018.

Gonzalo is a student at Instituto de Física y Matemáticas, Universidad Michoacana de San Nicolás de Hidalgo. He is pursuing a MS degree in our Graduate program in Physics. He is in the last semester of the program writing his masters dissertation, he is planning to start the PhD program next term and among his interests is the topic of quantum mechanics.

In addition to his academic and research performance, Gonzalo also interacts well with his colleagues. I think he would be an excellent candidate, and I endorse his application.

Sincerely,

José Antonio González Cervera
